ARMONIA-S

Guarda il video

ARMONIA-S is a sliding window that protects your house from heat, cold and street noise. The strength and durability of the aluminium make it a practical and secure solution from a technical point of view, while its natural elegance means that it easily adapts to and enhances any type of space.

DESIGN

ARMONIA-S is available in a range of different aesthetic designs and styles. The wide range of finishes and colours makes it possible to meet the most diverse aesthetic requirements and to benefit from the maximum expression of style both inside and out.

1 STANDARD FEATURES AND SOLUTIONS

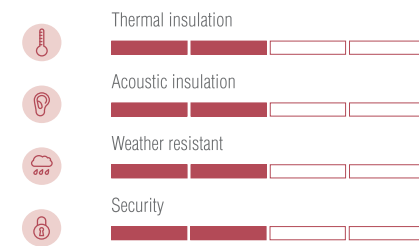

AURORA AND MARTELLINA LONG HANDLES
Designed exclusively for our windows, the elegant and thoughtful design of these handles, together with the range of finishes available, enable them to meet any stylistic and functional requirements.

LOWERED SILL
The lowered or floor-flush sills eliminate architectural barriers thus making it easier and safer to move from space to space.

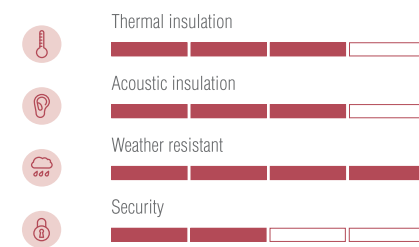

3 PERFORMANCE

The thermal break in the window ensures excellent thermal insulation, which is fundamental in ensuring a better quality of life in the home.
