comfort
and
strength

The NATHURA aluminium and wood window makes your home comfortable by protecting it against the cold and heat. It offers the perfect blend of elegance, durability and easy maintenance. The wood gives a warm and welcoming aspect to space while the aluminium ensures ease of maintenance and no leakage.

PERFORMANCE

3

The NATHURA window is available in a variety of different design styles. On the outside, you can choose from a range of RAL colours, wood finishes and aluminium oxidized effects. On the inside, several wood textures and finishes are available to enhance the natural beauty: lacquered, matt, polished, pickled, open or closed pore. The exquisite finishes and aluminium profile designs on offer are a synonym of elegance, both indoors and outdoors.

AURORA HANDLES

The Martellina handle of the Aurora collection features a smaller back plate and a softer line. The 90° and 180° rotation capability with position block allows for casement and tilt&turn opening.

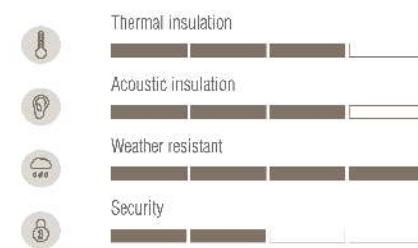

DRAINAGE CAP

Maximum attention to detail is ensured with the inclusion of an aluminium cap, which matches the colour of the window frame and covers the external holes used to drain water and condensation.

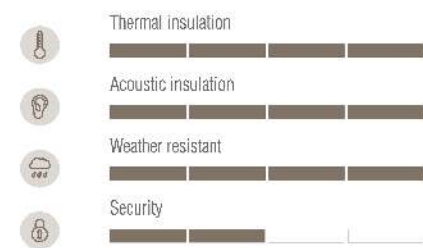

The thermal and acoustic insulation properties guarantee energy savings and comfortable wellbeing in the home.

NATHURA combines the quality and properties of aluminium and wood, harmonizing traditional style with the durability of aluminium.

SLIDING SYSTEM

beautiful resistant and easy to handle

NATHURA-S

Watch the video

The NATHURA-S sliding window is made from aluminium and wood and combines the extraordinary strength, resistance and durability of aluminium with the warm effect of wood. With NATHURA-S you can have modern technology and traditional aesthetic, with no compromise.

DESIGN

The versatility of the NATHURA-S window means that it can be perfectly adapted to any architectural style thanks to the variety of aesthetic options available for the wood and aluminium. On the inside, several wood textures and finishes are available to enhance the natural beauty: lacquered, matt, polished, pickled, open or closed pore. On the outside, you can choose from a range of RAL colours, wood finishes and aluminium oxidized effects. The exquisite finishes and aluminium profile designs on offer are a synonym of elegance, both indoors and outdoors.

AURORA HANDLES

This handle can be adapted to any style thanks to the selection of finishes available. Its ergonomic shape and technical features permit the easy, effortless handling of the sliding panels.

LOWERED SILL

The lowered or floor-flush sills eliminate architectural barriers thus making it easier and safer to move from space to space.

The thermal break in the window ensures excellent thermal insulation and effective noise reduction. The high performance of the product guarantees security, comfort and wellbeing at home.

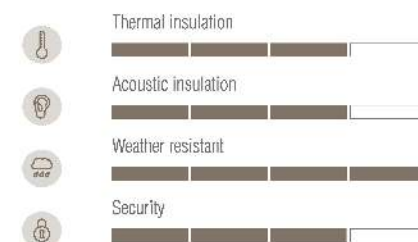

The aesthetic design styles and technical solutions available enhance the appearance and functionality of any space.

The warm atmosphere of wood, the lightness and practicality of aluminium: these are the main features of NATHURA-S, the sliding window that adds charm to any indoor setting.

By exploiting the excellent physical and mechanical properties of the aluminium and wood used, the NATHURA-S window offers the perfect aesthetic balance between modern and classic design.
